Bought it even though theres nothing worth but waste your money, still no regret :D. Significantly enhances the Story of the Game and provides new Challenges for the player to overcome. Also, it's available in Pink.. SHUT UP MOM DONT TELL ME WHAT TO BUY. The maid outfit comes with 5 different colours you can choose from, 4 of them change the pink and yellow lines that you can see from the picture above, and one of them changes the maid outfit to completely pink and white. Overall, I'm very happy with my purchase. Now I get to have a cute maid with me while playing this. I'll rate this dlc 10/10.. How do I hide this from my activity feed?. I swear, I had a dollar lying around in my Steam wallet. I didn't add money just to buy this. I swear.
